

HOW IT WORKS

W.I.S

Wellis intelligent system

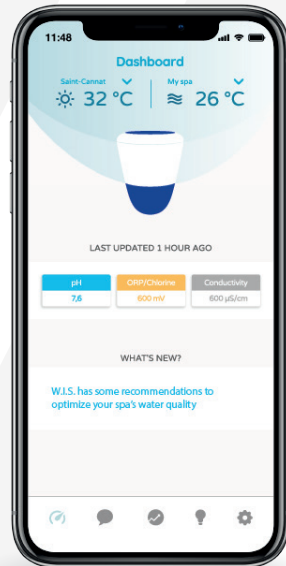

I analyse

I continuously measure and analyse spa water quality.

I advise

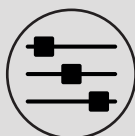

I formulate recommendations and notify on smartphone.

Comfort

Simply drop W.I.S. in the spa and check via smartphone water quality.

Control

W.I.S.' multiple sensors keep an eye on the spa, evaluating visible elements (algae, lime scale, etc.) and invisible ones (bacteria, aggressive water, etc.).

Health

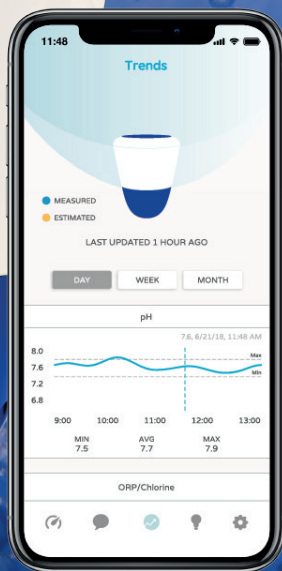

W.I.S. formulates recommendations to optimize the use of chemicals (type, dosing, etc.).

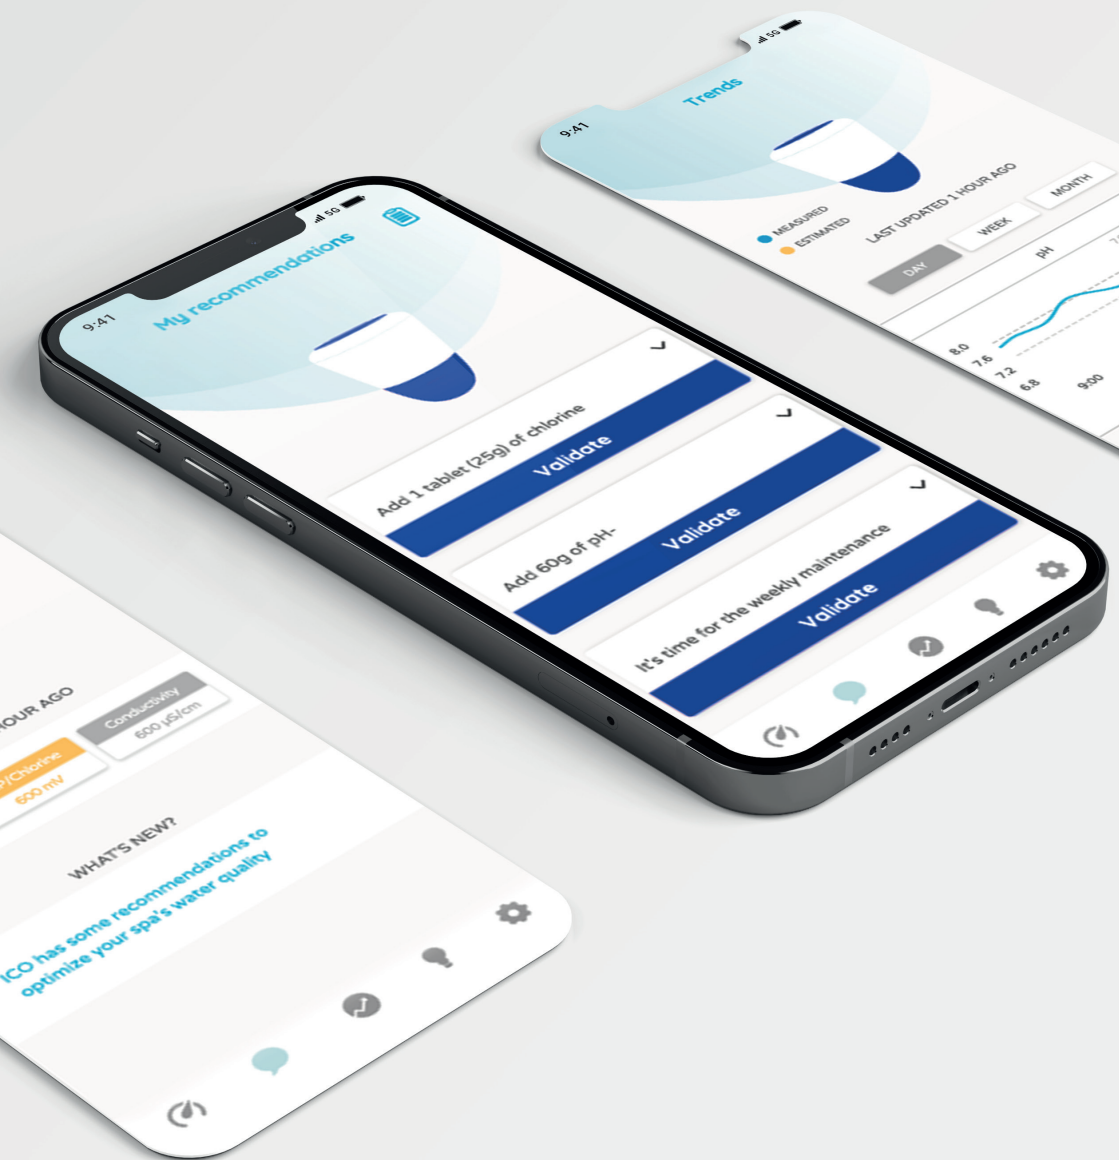

Savings

Keeping water chemistry balance right to make savings in chemicals and protecting your spa surface and equipment.

W.I.S APPLICATION

SIMPLICITY & ACCESSIBILITY

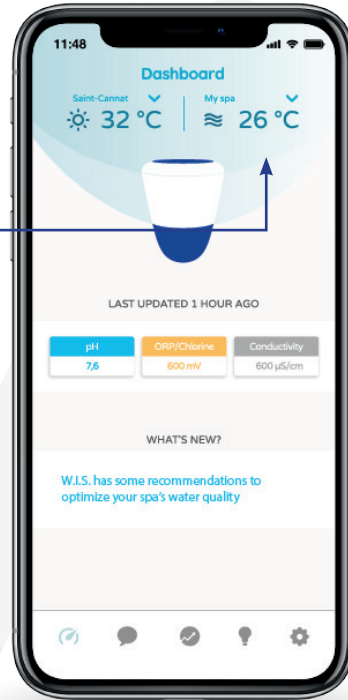

NEW HOME SCREEN

HOW IT WORKS

ROBUST AND COMPACT

PLUG & PLAY SENSORS

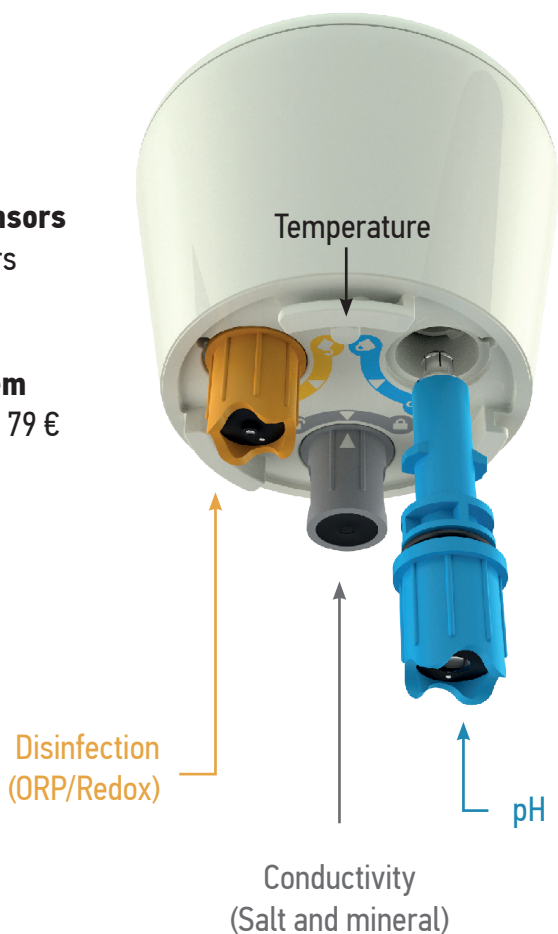

SOLID AND SIMPLE OF USE

**Patented
overmolded sensors**
lifetime: 3-5 years

Twistlock system
public price from 79 €
inc. VAT

RECHARGEABLE BATTERY

**Long-life
battery**

**USB cable and
charger included**

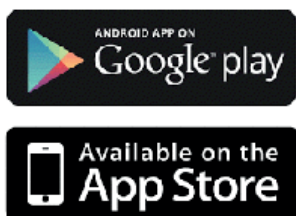

one season

LET'S GET STARTED

1. Download the app

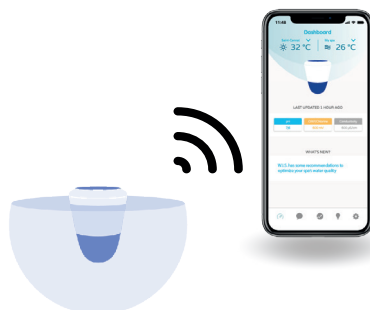

2. Turn on your W.I.S.

3. Follow the instructions

4. Get your first measures
